Bachelor of Arts in Sociology (Syllabus)

Course Overview

This course aims to impart the students with up-to-date knowledge in Sociology. Specifically, this course aims to begin students' exposure to theoretical, methodological and empirical debates in the discipline and about different facets of Nepali society. While the students will engage primarily with prescribed reading, comprehending, synthesizing and analysing the texts, attention has also been given to encourage them in applying the insights they learn from these texts in understanding contemporary Nepali society (particularly the community) in which they are a member.

Reading the texts, being active in classroom discussions, and making efforts while thinking and writing to link it with key facets of one's society are the three activities the students are expected to engage in as the course progresses.

The course has a relatively heavy emphasis on the *practicum* (worth 30 full marks out of total 100 in each module and that demands 50 hours equivalent of academic engagement on each paper). In each module, students are required to link the texts they read and discuss in the class with (any part of) society they come from or they are living in. Hence, whereas understanding Sociology is important, their ability to apply such understanding to their own community and society is also important.

Finally, to enhance their ability to organize ideas systematically and enable them in writing, and communicate such ideas in effective ways, skills in research and writing have also been emphasized.

Learning Objectives

The course has the following specific objectives:

- a) to inculcate students in sociological perspectives, approaches and methods,
- b) to enhance students' ability to recognize and analyse underlying social-structural dynamics at work behind any social event or process,
- c) to provide students basic skills and analytical ability in understanding different aspects and dynamics of Nepalese society, and finally
- d) to develop semi-professional human resources to serve the country's developmental aspirations.

Assessment and Evaluation

The syllabus has a considerable emphasis on *practicum* (say, application). To earn 30 marks as part of the internal evaluation, the students have to engage in practical activities (like conducting mini-research, doing field visits, studying markets, review of a book/article, writing an essay and the like) which is worth (or equivalent of) 50 hours of academic engagement.

It implies that students have to constantly engage in applying what they have learned in the classroom by doing some project work. This may comprise activities such as mini field visits

and report write up, synthesizing a text, writing a seminar paper, and debating and making the presentation. For the practicum, 50 teaching hours have been allocated for each module and it carries 30 full marks (out of 100 in each module). The practicum part will be accomplished along the way the students are engaged in the classroom teaching and it is the responsibility of the Subject Teacher to accomplish this on time.

Since the Syllabus has assigned one-third weightage (50 of a total of 150 teaching hours) on practicum, College and Departments who choose to introduce this (Bachelor of Arts in Sociology) course are encouraged to pay attention to this fact. They are encouraged to put in place required resources and institutional support and monitoring systems to implement it. In any circumstance, no sit-in examination can be conducted as part of internal evaluation, and students should be given opportunities to go outside the class, and learn from everyday real-life situations.

Regular attendance in the class, active participation in the classroom discussions, classroom presentations, and timely submission of assignments can also be considered as part of the internal evaluation. At the end of each academic year, there will be a university-wide final examination for 70 full marks in each module.

The overall structure of students' performance evaluation is as follows:

Activities	Division of marks	
(a) Internal evaluation (based on practicum)		
• Fieldwork and report, mini-research and report, review essay, etc.	10	30
• Mid-term examination	20	
(b) Final annual examination		70
Total full marks		100

Structure of the Syllabus

The overall syllabus has been organized on annual basis. To earn a Bachelor of Arts with a major in Sociology, students are required to complete altogether seven modules (worth 700 full marks) from this course, together with one Elective Module from other social science subjects (worth 100 full marks). The Elective module in third year (Code So410) will be offered to students majoring subjects other than Sociology.

The structure for Bachelor of Arts in Sociology has been organized in the following way:

First Year

Module No.	Code No.	Title	Remarks
1	So421	Introduction to Sociology	Compulsory
2	So422	Dynamics of Nepali Society	Compulsory

Second Year

Module No.	Code No.	Title	Remarks
3	So423	Sociological Theories	Compulsory
4	So424	Research Method in Sociology	Compulsory

Third Year

Module No.	Code No.	Title	Remarks
5	So425	Social Diversity and Inequality	Compulsory
6	So410	Federalism, Governance and Local Level Planning	Elective

Fourth Year

Module No.	Code No.	Title	Remarks
7	So426	Sociology of Development and Democracy	Compulsory
8	So427	Academic Research and Writing	Compulsory

Introduction to Sociology

Year:	First	Full marks:	100 (70+30)
Subject code:	So421	Pass marks:	40 (28+12)
Category:	Compulsory	Teaching hours:	150 (100+50)

Course Description. This module is an introductory part of 4-year courses of study of Bachelor of Arts in Sociology. It introduces basic concepts in Sociology focusing on theory, perspective and method. It also highlights society and sociology; key contributions in classical sociology; doing research sociologically; class, stratification and inequality; micro and macro social institutions; and understanding social change.

Objectives. The main objective of this course is to enable students to comprehend basic concepts in Sociology including social institutions; family, marriage, economy, education, social stratification and social inequality; and social change. It also aims to develop analytical skills with students engaging them in fieldwork and report writing.

- Course Contents -

Unit I. Understanding Society and Sociology

(15 hrs)

- a) The building blocks of society
 - Social interaction
 - Social structure (interactions, institutions, societies)
 - Social interaction in everyday life
- b) Understanding society sociologically
 - Social structural approach (Norbert Elias)
 - Sociological imagination (C. Wright Mills)
 - The sociology of knowledge (Berger and Luckman)
 - Comparative historical approach (Charles Tilly, Michael Mann)
- c) Contemporary transformations in Nepali society

Readings

Unit II. Key Contributions in Classical Sociology

(15 hrs)

- a) Contributions of classical sociologists
 - Auguste Comte
 - Karl Marx
 - Emile Durkheim
 - Max Weber
- b) Sociology in Nepal: Institutional, academic and research history

Readings

Coser, L. A. (1977). *Masters of Sociological Thought: Ideas in Historical and Social Context*, second ed., New York: Harcourt Brace Jovanovich, pp. 3-13; 43-57; 129-143; 217-234.

An inside story of political-academic muddling*, Gaurab KC and Pranab Kharel (eds.), *Practices of Sociology in Nepal*, Kathmandu: Bajra Publications, pp. 38-45.

Unit III. Science and Sociology

(10 hrs)

- a) Is sociology a science?
- b) Research philosophy: positivism and interpretivism
- c) The method and process of social research
- d) Understanding cause and effect
- e) Doing fieldwork and collecting data

Readings

Giddens, Anthony. (2001). Sociological research method, in *Sociology*, 4th ed., Cambridge: Polity Press, pp. 638-657.

Ryan, Gemma. (2018). Introduction to positivism, interpretivism and critical theory. *Nurse Researcher*, vol. 25(4) pp. 41-49 (retrieved on 10 December 2020 from Open Research Online, <http://oro.open.ac.uk/49591/17/49591ORO.pdf>).

Unit IV. Social Stratification and Inequality

(15 hrs)

- a) Theories of class and stratification (Marxist, Weberian and E. O. Wright's theories)
- b) Class, gender and ethnic dimensions of inequality
 - Class division and inequality
 - Class and social mobility
 - Gender inequalities
 - Ethnicity and inequality

- c) Aspects of class and caste hierarchies in Nepali society

Readings

- Giddens, Anthony. (2001). Class, stratification and inequality, in *Sociology*, 4th ed., Cambridge: Polity Press, pp. 283-303.
- Smelser, Neil J. (1993). Class and social mobility, in *Sociology*, 4th edition, New Delhi: Prentice-Hall of India, pp. 173-179.

- Gautam, Tika Ram. (2017). Ethnicity, Access to Education and Inequality in Nepal. *Contemporary Social Sciences*, 26 (1): 17-48.

Unit V. Micro Social Institutions

(15 hrs)

- a) Structure and functions of basic social institutions
- Marriage
 - Family
- b) Variations in the family: single parents, cohabitation, same-sex couples, staying single, divorce and remarriage, intimate violence
- c) Globalization and family life

Readings

- Ember, C. R and Melvin Ember. (1993). Marriage, in *Anthropology*, 6th edition, New Delhi: Prentice-Hall of India, pp. 326-343.

Unit VI. Macro Social Institutions

(15 hrs)

- a) Economic institutions
- Work
 - Occupations
 - Division of labour
 - Transformation of work
- b) Political institutions
- Power and politics (Functionalist and Marxist perspectives)

- The elite theory
- Pluralism
- Voting behaviour
- The democratic idea
- c) Educational institutions
 - Education (functionalist, liberal and Marxian perspectives)
 - Class and educational attainment
 - Education, opportunity and inequality

Readings

Giddens, Anthony. (2001). Work and economic life, in *Sociology*, 4th ed., Cambridge: Polity Press, pp. 372-387.

Haralambos, Michael. (1980). Power and politics, in *Sociology: Themes and Perspectives*, Delhi: Oxford University Press, pp. 98-139 and 172-225.

Unit VII. Understanding Social Change

(15 hrs)

- a) Change, development and progress
- b) Understanding social change
 - Theories of social change
 - Factors in social change
 - Types of social change
- c) Social change in developing countries
- d) Globalization, social change and Nepal

Readings

Bottomore, T. B. (1975). *Sociology: A Guide to Problems and Literature*, New Delhi: Blackie & Son (India) Ltd. pp. 308-310; 283-291; 303-308.

Unit VIII. Guideline for Practicum

(50 hrs)

As part of the internal evaluation, the Subject Teachers are suggested to divide the students into groups and assign each group mini-research or project work and ask them to write a report. The Subject Teachers may support the students in this process. Each group of students will submit a report in a format of proper academic writing within the specified time. Each group of students will make an oral presentation (viva voce) in the class.

Originality and level of efforts put in mini-research or project work, its oral presentation (about 5 to 10 minutes) and/or the quality of report (about 3 to 4 typed pages) will be the basis of the evaluation of 30 marks allocated for practicum.

- Group of students who choose to conduct mini-research can have few interviews (or case studies, or field visits) on a particular theme/issue relevant to the contents of this

module and also relevant to the community and society of their own. The purpose is to help them learn to link the knowledge gained in course of this module with the everyday societal reality of their own. This will also be an opportunity for them to develop writing skills.

- Group of students who choose project work instead of mini-research will primarily engage in deskwork. Academic engagement in the form of deskwork may involve writing an essay, reviewing an article/book chapter, reviewing a contribution of a particular sociologist, doing a literature review, etc. (not more than 3 to 4 pages typed).

The Subject Teachers are suggested that students get adequate and timely mentoring support to pursue these assignments, whose ultimate aim is to help them form a habit of independent thinking, academic writing, and describing their community (colleges, markets, government offices, local leaderships, family and marriage systems, patterns of migration, processes like urbanization, and so on) from the sociological gaze (above and beyond layperson observations).

For example, under the module of 'Introduction to Sociology,' students can be encouraged to engage in the following themes/issues corresponding to the texts of each unit:

- For Unit I: Applying one of the sociological vantage points to describe changing nature of Nepali society.
- For Unit II: Deskwork to write an essay on 'Institutional and Academic History of Sociology in Nepal'.
- For Unit III: The landscape of sociological research in Nepal.
- For Unit IV: Mini research on class and caste divisions in contemporary Nepali society.
- For Unit V: The changing landscape of marriage, family, households and kinship in Nepali society.
- For Unit VI: Review of economy, political or education sector(s) in Nepal (before the 1990s, after 1990s and post-2015).
- For Unit VII: Historical overview of social change in Nepal (before the 1990s, after 1990s and post-2015).

The Subject Teachers are suggested to take the above issues as indicative and they can assign any theme that is relevant to the specific context of their society and community.

Dynamics of Nepali Society

Year:	First	Full marks:	100 (70+30)
Subject code:	So422	Pass marks:	40 (28+12)
Category:	Compulsory	Teaching hours:	150 (100+50)

Course Description: This course aims to familiarize the students by engaging them with the transformations that Nepali society is undergoing in caste/ethnicity, economy, education, health, regionalism, politics, and social demography.

Objectives: The main objective of this course is to familiarize the students with some of the fundamental features of Nepali society; social demography, economy, politics from a Sociological perspective, thereby enhancing their capacity to engage intensively with discussion/debates of contemporary issues in Nepali society. It also aims to develop the students' research and writing skills by engaging them in practical aspects focusing on the core issues of Nepali society from the sociological perspective.

- Course Contents -

Unit I. Dynamics of Contemporary Nepali Society

(20 hrs)

- a) Identity and ethnicity: concept and debate
- b) Caste and society: changing dynamics
- c) Inclusion and exclusion: concept and debate
- d) Nationalism: conceptual debate and practice
- e) Federalism: concept, models and application
- f) Secularism: conceptual debate and practice

Unit VI. Guideline for Practicum

(50 hrs)

As part of the internal evaluation, the Subject Teachers are suggested to divide the students into groups and assign each group mini-research or project work and ask them to write a report. The Subject Teachers may support the students in this process. Each group of students will submit a report in a format of proper academic writing within the specified time. Each group of students will make an oral presentation (viva voce) in the class.

Originality and level of efforts put in mini-research or project work, its oral presentation (about 5 to 10 minutes) and/or the quality of report (about 3 to 4 typed pages) will be the basis of an evaluation of 30 marks allocated for practicum.

- Group of students who choose to conduct mini-research can have few interviews (or case studies, or field visits) on a particular theme/issue relevant to the contents of this module and also relevant to the community and society of their own. The purpose is to help them learn to link the knowledge gained in course of this module with the

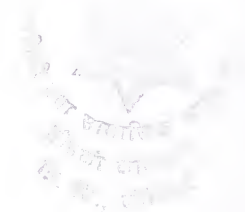

everyday societal reality of their own. This will also be an opportunity for them to develop writing skills.

- Group of students who choose project work instead of mini-research will primarily engage in deskwork. Academic engagement in the form of deskwork may involve writing an essay, reviewing an article/book chapter, reviewing a contribution of a particular sociologist, doing a literature review, etc. (not more than 3 to 4 pages typed).

The Subject Teachers are suggested that students get adequate and timely mentoring support to pursue these assignments, whose ultimate aim is to help them form a habit of independent thinking, academic writing, and describing their community (colleges, markets, government offices, local leaderships, family and marriage systems, patterns of migration, processes like urbanization, and so on) from the sociological gaze (above and beyond layperson observations).

Sociological Theories

Year:	Second	Full marks:	100 (70+30)
Subject code:	So423	Pass marks:	40 (28+12)
Category:	Compulsory	Teaching hours:	150 (100+50)

Course Objective: This course aims to introduce the undergraduate students to key sociological theories; classical to current. It helps them to navigate through the important ideas in each of the sociological theories. Besides, the module enables students to categorize sociological theories, identify the structure of social institutions, interpret the dynamics of social relationships, and analyze the pattern of that relationship. Students' exposure to extant theoretical development helps them to analyze the dynamics of Nepali society with reference taken from major arguments of any sociological theory. Apart from this, the unit-wise practicum helps students to engage in higher classroom interaction, and get instant feedback from students and teachers. They will develop confidence in communicating and expressing their ideas clearly.

- Course Contents -

Unit I. Introduction to Sociological Theories (15 hrs)

- a) Meaning of sociological theory: what does theory mean, and what ought theory to mean in sociological language
- b) The structure of sociological theory: subject matter, assumption, methodology, and objective
- c) Major functions of sociological theory
- d) Categorizing sociological theories as micro and macro
- e) Relationship between theory and research.

Readings

Abraham, M. Francis. (2001). *Modern Sociological Theory: An Introduction*, New York: Oxford University Press. pp. 1-5.

Wallace, Ruth A. and Alison Wolf. (2006). *Contemporary Sociological Theory: Expanding the Classical Tradition*, New Delhi: PHI Learning Private Limited, pp. 3-13.

Abraham, M. Francis. (2001). *Modern Sociological Theory: An Introduction*, New York: Oxford University Press. pp. 11-13, 33-35.

Practical activities. After completion of this unit, the Subject Teacher will divide the students into groups and will assign them to write a seminar paper, based on group discussion focusing on the major themes related to Introduction to Sociological Theory. Every student must participate in the group presentation.

Unit II. Structural-Functionalism (15 hrs)

- a) Key assumptions
- b) Emile Durkheim, and social solidarity
- c) Herbert Spencer, and organic analogy
- d) Talcott Parson, AGIL and equilibrium
- e) R. K. Merton, and manifest and latent functions

f) Strengths and weaknesses of structural-functionalism

Readings

Abraham, M. Francis. (2001). *Modern Sociological Theory: An Introduction*. New York: Oxford University Press, pp. 72-82

Adams, Bert N. and R.A. Sydie. (2002). *Sociological Theory*. New Delhi: Vistaar Publications, pp. 68-70, 93-95.

Wallace, Ruth A. and Alison Wolf. (2006). *Contemporary Sociological Theory: Expanding the Classical Tradition*, New Delhi: PHI Learning Private Limited, pp. 35-44, 51-52.

Abraham, M. Francis. (2001). *Modern Sociological Theory: An Introduction*, New York: Oxford University Press, pp 93-102.

Practical activities. After completion of this unit, the Subject Teacher will divide the students into groups and will assign them to write a seminar paper related to any social event or process of their society. Students will apply Structural-Functionalism for understanding and analyzing such events, and present them in the class as project work.

Unit III. Conflict Theory

(15 hrs.)

- a) Key assumptions
- b) Karl Marx, and class struggle, historical dialectic materialism, mode of production, and social change
- c) Ralf Dahrendorf, interest group and conflict
- d) C. Wright Mills and power elite
- g) Strengths and weaknesses of the conflict theory

Readings

Abraham, M. Francis. (2001). *Modern Sociological Theory: An Introduction*. New York: Oxford University Press, pp. 113-120.

Slattery, Martin. (2003). *Key Ideas in Sociology*, London: Nelson Thornes Ltd., pp. 46-50.

Abraham, M. Francis. (2001). *Modern Sociological Theory: An Introduction*. New York: Oxford University Press, pp. 122-128, 138-41.

Practical activities. After completion of this unit, the Subject Teacher will divide the students into groups and will assign them to write a seminar paper on any social event, process or institution, and pursue students-led discussion in the class. In this process, they will apply Conflict Theory particularly focusing on how useful it is for them to understand their community.

Unit IV. Symbolic Interactionism

(15 hrs.)

- a) Key assumptions
- b) Herbert Blumer and autonomous actions
- c) George Herbert Mead and human self
- d) Ervin Goffman and dramaturgy
- e) C. H. Cooley and looking glass self
- f) Strengths and weaknesses of the symbolic interactionism

Readings

Ritzer, George. (2011). *Sociological Theory*. 5th ed., New York: McGraw Hill, pp. 357-361.

Wallace, Ruth A. and Alison Wolf. (2006). *Contemporary Sociological Theory: Expanding the Classical Tradition*, New Delhi: PHI Learning Private Limited., pp. 204-17, 238-41.

Abraham, M. Francis. (2001). *Modern Sociological Theory: An Introduction*. New York: Oxford University Press, pp. 213-15.

Ritzer, George. (2011). *Sociological Theory*. Eighth ed., New York: McGraw Hill, pp. 371-372.

Practical activities. After completion of this unit, the Subject Teacher will divide the students into groups and will assign them to write a seminar paper as project work, based on group discussion or field observation. Students will apply Symbolic Interactionism to analyze the issue chosen from their community.

Unit V. Exchange and Rational Choice Theories

(8 hrs.)

- a) Key assumptions
- b) George C. Homan's value proposition and exchange
- c) James Coleman, rational choice and collective behaviour
- d) Strengths and weaknesses of the theory

Readings

Abraham, M. Francis. (2001). *Modern Sociological Theory: An Introduction*. New York: Oxford University Press, pp. 147-148.

Ritzer, George. (2011). *Sociological Theory*. 8th ed. New York: McGraw Hill, pp. 407-14, 432-41.

Practical activities. After completion of this unit, the Subject Teacher will divide the students into groups to engage in collaborative group work on the way Exchange and Rational Choice theories are applied to the community of which they are a member. In the end, each group will develop a group seminar paper and present it in the class.

Unit VI. Ethnomethodology and Phenomenology

(8 hrs.)

- a) Key assumptions
- b) Harold Garfinkel, ethnomethodology and everyday life
- c) Alfred Schutz, phenomenology and subjective interpretation
- d) Strengths and weaknesses of the theory

Readings

Slattery, Martin. (2003). *Key Ideas in Sociology*. London: Nelson Thornes Ltd., pp. 104-108, pp. 165-170.

Practical activities. After completion of this unit, the Subject Teacher will divide the students into groups and will assign them to write a group report based on group discussion or field observation focusing on the major ideas related to Ethnomethodology and Phenomenology. Students can make any social phenomenon of their community a topic of discussion in the class. They will apply Ethnomethodology or Phenomenology for analyzing such a phenomenon, and present it as a project work.

Unit VII. Gender and Feminist Theories

(12 hrs)

- a) Key assumptions
- b) Liberal feminism and gendered division of labour
- c) Marxist feminism and capitalist patriarchy

- d) Socialist feminism and the theory of domination
- e) Radical feminism and the notion of patriarchal oppression
- f) Black feminism and intersectionality
- g) Strengths and weaknesses of feminist theories

Readings

Ritzer, George. (2011). *Sociological Theory*. 8th ed. New York: McGraw Hill, pp. 444-479.

Adams, Bert N. and R.A. Sydie. (2002). *Sociological Theory*. New Delhi: Vistaar Publications, pp. 546-48.

Smith, Sharon. (2013). Black Feminism and Intersectionality. *International Socialist Review* (91). Center for Economic Research and Social Change. Available on <https://isreview.org/issue/91/black-feminism-and-intersectionality>, accessed on 6 December 2020.

Haralambos, Michael, Martin Holborn, Steve Chapman and Stephen Moore. (2019). *Sociology: Themes and Perspectives*. London: Harper Collins Publishers Limited, pp. 104-108.

Practical activities. After completion of this unit, the Subject Teacher will divide the students into groups and will assign them to write a seminar paper based on group discussion or field observation. Students can choose one of the themes such as domestic care work, divorce, female-headed households, women's public participation, etc. as the topics of discussion. They will apply Feminist Theories to analyze such social dynamics, and present a group report in the class.

Unit VIII. Linking Micro and Macro

(12 hrs.)

- a) Key assumptions
- b) Anthony Giddens and structuration theory
- c) Pierre Bourdieu and social practice
- d) Jurgen Habermas, and system and lifeworld
- e) Strengths and weaknesses of the theory

Readings

Ritzer, George. (2011). *Sociological Theory*. 8th ed., New York: McGraw Hill, pp. 493-508, pp. 522-528, pp. 530-547.

Practical activities. After completion of this unit, the Subject Teacher will divide the students into groups and will assign them to write a seminar paper as project work, based on group discussion or field observation of everyday life focusing on the major ideas related to linking micro and macro. Students can choose one of the following or similar issues, such as school education, basic health, local governance, remittance and migration, community-based organizations (such as *Aama Samuha*, *Tole Sudhar Samitti*), rural economy, agricultural market, urban society, or any such issues as a topic of discussion. They will attempt to relate micro and macro-sociological theories together in analyzing such issues, and present it as a seminar paper in the class.

Unit IX. Guideline for Practicum

(50 hrs)

As part of the internal evaluation, the Subject Teachers are suggested to divide the students into groups and assign each group mini-research or project work and ask them to write a report. The Subject Teachers may support the students in this process. Each group of students

will submit a report in a format of proper academic writing within the specified time. Each group of students will make an oral presentation (viva voce) in the class.

Originality and level of efforts put in mini-research or project work, its oral presentation (about 5 to 10 minutes) and/or the quality of report (about 3 to 4 typed pages) will be the basis of an evaluation of 30 marks allocated for practicum.

- Group of students who choose to conduct mini-research can have few interviews (or case studies, or field visits) on a particular theme/issue relevant to the contents of this module and also relevant to the community and society of their own. The purpose is to help them learn to link the knowledge gained in course of this module with the everyday societal reality of their own. This will also be an opportunity for them to develop writing skills.
- Group of students who choose project work instead of mini-research will primarily engage in deskwork. Academic engagement in the form of deskwork may involve writing an essay, reviewing an article/book chapter, reviewing a contribution of a particular sociologist, doing a literature review, etc. (not more than 3 to 4 pages typed).

The Subject Teachers are suggested that students get adequate and timely mentoring support to pursue these assignments, whose ultimate aim is to help them form a habit of independent thinking, academic writing, and describing their community (colleges, markets, government offices, local leaderships, family and marriage systems, patterns of migration, processes like urbanization, and so on) from the sociological gaze (above and beyond layperson observations).

Research Method in Sociology

Year:	Second	Full marks:	100 (70+30)
Subject code:	So424	Pass marks:	40 (28+12)
Category:	Compulsory	Teaching hours:	150 (100+50)

Course Description: This course aims to familiarize the students with fundamental research methods and the research process in sociology. The course begins with an introduction to social research and its process. It discusses theory and research, literature review in sociological research and the different components of research design; measurement and relationships, determining and selecting sample and sample size, collecting data and analysing them and finally, it furthermore aims students writing a research report.

Objectives: The main objective of this course is to familiarize students with basic research methods in sociology. It enables students to frame research design in different nature of research. Finally, it enables students to write research reports from sociological standpoints.

- Course Contents -

Unit I. Understanding Research as a Process

(14 hrs)

- a) Social research: characteristics and scope
- b) Types and objectives of pure research, applied research, action research and historical research
- c) Conceptualizing research problem
 - Distinguishing research problem from the ongoing social problem(s)
 - Sources of the research problem
 - Characteristics of a good research problem
 - Steps in the formulating research problem
- d) Considering research variables during the formulation of the research problem
- e) Process of social science research
- f) Making research sociological

Practical activities: The purpose of this unit is to train students about social research and engage them in developing a research problem for a mini-research. Primarily it aims to expose them to understand how research is conducted.

- Turley, Ruth N. López. (2016). Connecting Research and Policy to Reduce Inequality. *The Russell Sage Foundation Journal of the Social Sciences*, vol. 2(5), pp. 272-285. (for practicum)

Unit II. Literature Review

(8 hrs)

- Why do we do a literature review in research?
- Sources of literature
- Literature search procedure
- Procedure for reviewing the literature
- Linking literature review with research problem formulation
- Literature review and finding research gaps

Practical activities: The purpose of this unit is to develop skills in doing a literature review and understanding the purpose of conducting it. It helps the student to identify knowledge gaps in the chosen field of inquiry.

Readings

- Krishanswami, O. R. (1993). *Methodology in Research in Social Science*. New Delhi: Himalayan Publishing House, pp. 76-86.
- Neuman, W. Lawrence. (2008). *Social Research Methods: Qualitative and Quantitative Approaches*. Sixth Edition. New Delhi: Pearson Education, pp. 110-146.
- Denney, Andrew S. & Richard Tewksbury. (2013). How to Write a Literature Review, *Journal of Criminal Justice Education*, vol. 24(2), pp. 218-234. (for practicum)

Unit III. Linking Research with Theory

(8 hrs)

- Theory and research interlinks
- Theoretical considerations: positivism and interpretivism
- Linking theory to research strategy: quantitative and qualitative
- Linking theory to the research process
 - Inductive reasoning
 - Deductive reasoning, and
 - Empirical generalization

Practical activities: The purpose of this unit is to help students internalize theory as a process of research and to enable them to link theory with research in a practical way.

Readings

- Francis, Abraham. (1982). *Modern Sociological Theory: An Introduction*. Delhi: Oxford University Press, pp. 20-38.
- Baker, T. L. (2014). *Doing Social Research*. Third ed., New Delhi: McGraw Hill India, pp. 40-65.

Neuman, W. Lawrence. (2008). *Social Research Methods: Qualitative and Quantitative Approaches*, sixth ed., New Delhi: Pearson Education, pp. 49-77.

Manning, Philip. (2016). *Goffman and Empirical Research, Symbolic Interaction*, vol. 39(1), pp. 143-152. (for practicum)

Unit IV. Research Design

(10 hrs)

- a) Research design as a research plan
- b) Components of research design
- c) Types of research design
 - Descriptive research design
 - Exploratory research design
 - Explanatory research design
 - A brief introduction to cross-sectional, longitudinal and historical research

Practical activities: Three of the most influential and common purposes of research are exploration, description and explanation. The purpose of this unit is to enable students to develop an overall research strategy. It provides an outline for the collection, measurement, and analysis of data.

Readings

Frankfort-Nachmias, Chava, David Nachmias and Jack DeWaard. (2000). *Research Methods in the Social Sciences*, Sixth ed., New York: Worth Publishers, pp. 87-135.

Kothari, C. R. (2009). *Research Methodology: Methods and Techniques*. Second rev. ed., New Delhi: Wishwa Prakashan, pp. 39-67.

Wilkinson, T. S. and P. L. Bahandarkar. (1992). *Methodology and Techniques of Social Research*. New Delhi: Himalaya Publishing House, pp. 97-145.

Hedrick, Terry E., Leonard Bickman & Debra J. Rog. (1993). The Nature of Applied Research, in *Applied Research Design*, Chapter 1, SAGE Publication, Inc., pp. 3-41. (for practicum)

Unit V. Sampling

(12 hrs)

- a) Census and survey research
- b) Why do we do sampling in a research
- c) Universe and sampling
- d) Sample size and its determination
- e) Sample as a process of research
- f) Sampling method
 - Probability sampling: simple random, systematic, stratified, cluster, multistage
 - Non-probability sampling: purposive/judgemental, accidental, quota, snowball
- g) Selection of informants and research participants in qualitative research

Practical activities: The purpose of this unit is to equip students with the idea and process of sample selection based on the qualitative or quantitative nature of the research.

Readings

- Vanderstoep, Scott W. and Deirdre D. Johnston. (2009). *Research Methods for Everyday Life: Blending Qualitative and Quantitative Approaches*, San Francisco, CA: Jossey-Bass, pp. 25-44. (for practicum)

Unit VI. Tools of Data Collection

(15 hrs)

- Questionnaire: meaning, types and process
- Interview: meaning, types and process
- Observation: meaning, types and process
- Case study: meaning, types and process
- Participatory rural appraisal (PRA): Social wellbeing, social and resource mapping, preference ranking, seasonal calendar, and timeline.

Practical activities: The purpose of this unit is to make students familiar with different types of data collection, i.e. quantitative, qualitative and ethnographic data collection. It helps students in making rational decisions to select relevant data collection tools.

- Luintel, Youba Raj. (2004). Agency, autonomy and the shared sexuality: Gender relations in polyandry in Nepal Himalaya, *Contributions to Nepalese Studies*, vol. 31(1), pp. 43-83. (Read pp. 49-56 only) (for practicum)
- Diaz-Bone, Rainer, Kenneth Horvath and Valeska Cappel. (2020). Social research in times of big data. The challenges of new data worlds and the need for a sociology of social research, *Historical Social Research*, vol. 45(3), pp. 314-341. (for practicum)

Unit VII. Measurement and Relationship

(10 hrs)

- Variables: independent and dependent; intervening
- Measurement scale: nominal, ordinal, interval and ratio
- Research hypothesis and research assumptions
- Relationship: causal and correlational; symmetrical, asymmetrical and reciprocal relationship; spurious interpretation

e) Causality between variables

Practical activities: Social sciences require both accurate and reliable measures. The purpose of this unit is to identify four levels of measurement and ways to collect and analyze data to show relationships between research variables.

Readings

Singh, Arun Kumar. (1986). *Tests, Measurement and Research Methods in Behavioural Sciences*. New Delhi: McGraw Hill, pp. 73-79.

Baker, T. L. (2014). *Doing Social Research*. Third ed., New Delhi: McGraw Hill India, pp. 114-140.

Singh, Arun Kumar. (1986). *Tests, Measurement and Research Methods in Behavioural Sciences*. New Delhi: McGraw Hill, pp. 3-13. (for practicum)

Unit VIII. Data Analysis and Presentation

(12 hrs)

a) Qualitative data analysis and presentation

- Editing, coding, classification, description and interpretation of qualitative data

b) Quantitative data analysis and interpretation with its logic and application

- Frequency distribution: univariate, bivariate and multivariate
- Ratio, proportion and percentage
- Measures of centre tendencies (mean, median, mode)
- Measures of dispersion (range, quartile deviation, average deviation) and standard deviation.
- Cross-tabulation: frequency distribution and Chi-square test
- Application of Correlation: Spearman's Rank Order Correlation, Karl Pearson's Correlation Coefficient

c) Interpretation of data

Practical activities: Data analysis is a process of cleaning, transforming, and modelling data to discover useful information and to apply statistical and logical techniques to describe, illustrate and evaluate data. The main purpose of this unit is to help students identify meaning in the data.

Readings

Unit IX. Academic Writing

(11 hrs)

- a) Major components of a research proposal
- b) Major components of a research report
- c) Presentation and dissemination of research report
- d) Citation, quotation and referencing (APA Style)
- e) Ethics of social science research
- f) Role of supervisor in report writing

Practical activities: The purpose of this unit is to improve students' abilities in writing skills, especially in the formal and academic tone. Especially, this unit aims to encourage and assist students in developing a research proposal and a research report in a systematic way.

Readings

Unit X. Guideline for Practicum

(50 hrs)

As part of the internal evaluation, each student will carry out mini research in or around their community, nearby market, bus station, corner shop, tea shop, school, etc. following a certain methodological frame. Under the supervision of a teacher, they will select a research theme for this independent research work, collect data and make a presentation (or submit a research report). Students can choose any issue but the focus of the practicum is to help them learn planning and conducting a research in a scientific manner.

The Subject Teacher will provide an outline of the research report in the style of academic writing, provide ideas on report writing skills, and help students make an effective oral presentation in front of the class. Subject Teachers are suggested to divide the students into groups and assign each group mini-research or project work and ask them to write a report. The Subject Teachers may support the students in this process. Each group of students will

submit a report in a format of proper academic writing within the specified time. Each group of students will make an oral presentation (viva voce) in the class.

Originality and level of efforts put in mini-research or project work, its oral presentation (about 5 to 10 minutes) and/or the quality of report (about 3 to 4 typed pages) will be the basis of the evaluation of 30 marks allocated for practicum.

The Subject Teachers are suggested that students get adequate and timely mentoring support to pursue these assignments, whose ultimate aim is to help them form a habit of independent thinking, academic writing, and describing their community (colleges, markets, government offices, local leaderships, family and marriage systems, patterns of migration, processes like urbanization, and so on) from the sociological gaze (above and beyond layperson observations).

Social Diversity and Inequality

Year:	Third	Full marks:	100 (70+30)
Subject code:	So425	Pass marks:	40 (28+12)
Category:	Compulsory	Teaching hours:	150 (100+50)

Course Description and Objectives. Societies are generally diverse and unequal. The extent of diversity and inequality across societies and historical periods varies much. Sociology provides challenges and opportunities to describe and explain social diversity and inequality. The course has the following five basic objectives. This course will help students to:

- develop a more nuanced understanding of diversity and inequality from sociological vantage points,
- comprehend that social diversity and social inequality influence and shape lives and societies, including the life of a student,
- access to quantitative data on the scale and trends of diversity and inequality,
- become well versed regarding diversity and inequality in Nepal, and
- learn to analyze the concrete social settings, relationships, institutions, processes, and so on.

Teaching and learning, as well as texts utilized in the course, should emphasize that:

- categories of social diversity and social inequality are relational rather than categorical,
- social diversity and inequality as well as all the dimensions identified are socially and historically constructed rather than natural, or given by “tradition,”
- it is necessary to problematize rather than normalize both social categories and social relations, and
- collection of quantitative data is important where available or can be relatively easily generated as part of the “practical,” for this course. Qualitative data, in turn, is important particularly to examine relations and to identify and pursue insights.

Following the completion of the course, they will be expected to explore opportunities for engaging on these issues using personal interest, public debate and professional research.

- Course Contents -

Unit I. Sociology, Diversity and Inequality

(16 hrs)

- a) Social diversity and social inequality: Distinctions and overlaps
- b) Significance of social diversity and social inequality in society and for Sociology
- c) Ways in which social diversity and inequality influence and shape individual life, social relations and social institutions
- d) Values, norm and practice, and social change

Readings

Unit II. Dimensions of Social Diversity

(26 hrs)

- Social identity
- Overlaps across social diversity and social inequality
- Changes in social diversity, including changes in identity
- Dimensions of social diversity: gender, ethnicity, region, religion, language, Rural and urban
- Livelihood and occupational diversity

Readings

Unit III. Dimensions of Social Inequality

(33 hrs)

- a) Social stratification: Class, status and power
- b) *Varna*, caste and sub-caste categories and social relations (in the Hills, Tarai-Madhesh, and India)
- c) Caste as a hierarchy (inequality) and as identity (difference)
- d) Class: income, wealth and landownership
- e) Dimensions of inequality: gender, ethnicity, region, religion and language
- f) Changes in social inequality
- g) Social mobility: ascription and achievement
- h) Intersections between and among categories of social inequality

Unit IV. The Dalit – non-Dalit relations

(25 hrs)

- a) Principal features of Dalit – non-Dalit social relations

- b) Purity, untouchability and commensality
- c) Inter-caste marriage and the practice of caste endogamy
- d) Restrictions on production and exchange of goods and services
- e) Relations of ownership, income and labour
- f) Changes in Dalit – non-Dalit social relations: Modernity, migration, urbanization, anonymity, etc.

Unit V. Guideline for Practicum

(50 hrs)

As part of the internal evaluation, the Subject Teachers are suggested to divide the students into groups and assign each group mini-research or project work and ask them to write a report. The Subject Teachers may support the students in this process. Each group of students will submit a report in a format of proper academic writing within the specified time. Each group of students will make an oral presentation (viva voce) in the class.

Originality and level of efforts put in mini-research or project work, its oral presentation (about 5 to 10 minutes) and/or the quality of report (about 3 to 4 typed pages) will be the basis of the evaluation of 30 marks allocated for practicum.

- Group of students who choose to conduct mini-research can have few interviews (or case studies, or field visits) on a particular theme/issue relevant to the contents of this module and also relevant to the community and society of their own. The purpose is to help them learn to link the knowledge gained in course of this module with the everyday societal reality of their own. This will also be an opportunity for them to develop writing skills.
- Group of students who choose project work instead of mini-research will primarily engage in deskwork. Academic engagement in the form of deskwork may involve writing an essay, reviewing an article/book chapter, reviewing a contribution of a

particular sociologist, doing a literature review, etc. (not more than 3 to 4 pages typed).

The Subject Teachers are suggested that students get adequate and timely mentoring support to pursue these assignments, whose ultimate aim is to help them form a habit of independent thinking, academic writing, and describing their community (colleges, markets, government offices, local leaderships, family and marriage systems, patterns of migration, processes like urbanization, and so on) from the sociological gaze (above and beyond layperson observations).

Federalism, Governance and Local Level Planning

(Elective paper for students from other subjects)

Year:	Third	Full marks:	100 (70+30)
Subject code:	So410	Pass marks:	40 (28+12)
Category:	Elective	Teaching hours:	150 (100+50)

Course description. This course deals with the changing socio-political context of federal Nepal. It focuses on the decentralization of power and resources in terms of identification, management and mobilization remain at the core of the federal system. Another emphasis of the course is good governance with service delivery through the rural municipality and urban municipality because they are the true pillars of federalization. In addition to that this course highlights the local resource mobilization through effective planning for successful development. It also examines the federal structure, local governance and planning processes in detail. The better practices of local governance through local units may create remarkable changes in education, health, employment, sanitation, and service delivery which is also the priority of this course. Thus, the course discusses the fundamentals of federalism, local governance and planning from a sociological perspective.

Objectives. This course aims to enable students to understand the concept of federalism, local governance and planning and analyze them at the global and national context from a sociological perspective. It familiarizes the students with the key aspects of federalism, local governance and planning in the context of Nepal and aims to develop skills useful to work in the areas of local governance and planning.

- Course Contents -

Unit I. Federalism, Governance and Local Planning

(20 hrs.)

- a) Federalism and democracy
 - Forms/Models
 - Purpose/objectives
 - Federalism in Nepal
 - Democracy and federalism
- b) Government and governance
 - Central, province and local
 - Local governments
 - Governance and good governance
 - Local governance in federal Nepal
- c) Local and urban planning: world and Nepal

Unit VII. Guideline for Practicum

(50 hrs.)

As part of the internal evaluation, Subject Teachers are suggested to divide the students into groups and assign each group mini-research or project work and ask them to write a report. The Subject Teachers may support the students in this process. Each group of students will submit a report in a format of proper academic writing within the specified time. Each group of students will make an oral presentation (viva voce) in the class.

Originality and level of efforts put in mini-research or project work, its oral presentation (about 5 to 10 minutes) and/or the quality of report (about 3 to 4 typed pages) will be the basis of the evaluation of 30 marks allocated for practicum.

- Group of students who choose to conduct mini-research can have few interviews (or case studies, or field visits) on a particular theme/issue relevant to the contents of this module and also relevant to the community and society of their own. The purpose is to help them learn to link the knowledge gained in the course with the everyday societal reality of their own. This will also be an opportunity for them to develop writing skills.
- Group of students who choose project work instead of mini-research will primarily engage in deskwork. Academic engagement in the form of deskwork may involve writing an essay, reviewing an article/book chapter, reviewing a contribution of a particular sociologist, doing a literature review, etc. (not more than 3 to 4 pages typed).

The Subject Teachers are suggested that students get adequate and timely mentoring support to pursue these assignments, whose ultimate aim is to help them form a habit of independent thinking, academic writing, and describing their community (colleges, markets, government offices, local leaderships, family and marriage systems, patterns of migration, processes like urbanization, and so on) from the sociological gaze (above and beyond layperson observations).

Sociology of Development and Democracy

Year:	Fourth	Full marks:	100 (70+30)
Subject code:	So426	Pass marks:	40 (28+12)
Category:	Compulsory	Teaching hours:	150 (100+50)

Course Description. The idea of development carries multiple meanings. This is one of the buzzwords in the field of social science. The term is complex and contested, ambiguous and elusive. To put it simply, development can be related to something like social change that allows people to achieve their human potential. Development is the sum total of growth, sustainability, inclusion, equity, human capability enhancement, enlarging people's choices, and so on. In the renewed understanding of development, particularly after the 1990s, one thing is broadly shared that development implies something more than production (growth) and includes such things as democracy, justice and fairness, for example. In this sense, development entails a process of societal change that undoubtedly puts people at the center.

Learning Objectives. This course intends to enable the students to:

- Familiarize themselves with the multiple, contested and shifting meanings of development (from sociological as well as developmental senses),
- Navigate with the broader claims and assertions in the name of development theories (from the post-war orthodox modernization theory to the post-developmental stance of people-centred development,
- Expose with contemporary developmental issues and challenges Nepal has been facing,
- Debating the intricacies of development and democracy (both broadly and in the context of Nepal), and
- Learn from Nepal's developmental priorities and strategies as reflected in ongoing plans, policies and commitments to international 'promises.'

The required readings for this course are chosen with two considerations in mind. First, they are chosen for their simplicity in their exposition at its theoretical and conceptual level. (Although, not every text will effectively address this consideration.) Second, the texts were written about different aspects of developmental issues in Nepal or policy frameworks, and research about Nepali society are chosen.

It is advised to the teachers that for 'practicum,' which covers about one-third of the total weightage of the course, students are encouraged to think, write and carry mini-researches on different aspects of development relevant to their community, *palika*, or group. For example, students may inquire what is the local understanding of development in their community? How are local-level development priorities fixed? What have been the contested issues of development in their *palika*? How is *lokatantra* practised at the community level? And, how does the practice of *lokatantra* paves the way for service delivery, inclusion and equity, for example?

- Course Contents -

Unit I. Understanding Development

(25 hrs.)

- a) Classical sociological interpretations of social change (and development) (Comte, Durkheim, Spencer, Maine, Tonnies, Toynbee and others)
- b) Shifting meanings of development
 - Economic growth and development
 - Sustainable development
 - Happiness and development
 - Human development
 - Inclusive development

Unit V. Nepal's Development Strategies and Priorities

(19 hrs.)

- a) Constitutional roadmap to Nepal's prosperity (post-2015 era)
 - Lokatantra
 - Federalism
 - Empowered local government
 - Secularism
 - Inclusive development
- b) Role of sector actors in development
 - Public sector
 - Private sector
 - The cooperative (*sahakari*) sector
 - NGO, civil society and community
- c) Nepal's developmental aspirations and LDC graduation
- d) SDGs and their implementation
- e) State of human development in Nepal

Readings

Unit VI. Guideline for Practicum

(50 hrs.)

As part of the internal evaluation, Subject Teachers are suggested to divide the students into groups and assign each group mini-research or project work and ask them to write a report. The Subject Teachers may support the students in this process. Each group of students will submit a report in a format of proper academic writing within the specified time. Each group of students will make an oral presentation (viva voce) in the class.

Originality and level of efforts put in mini-research or project work, its oral presentation (about 5 to 10 minutes) and/or the quality of report (about 3 to 4 typed pages) will be the basis of the evaluation of 30 marks allocated for practicum.

- Group of students who choose to conduct mini-research can have few interviews (or case studies, or field visits) on a particular theme/issue relevant to the contents of this module and also relevant to the community and society of their own. The purpose is to help them learn to link the knowledge gained in course of this module with the everyday societal reality of their own. This will also be an opportunity for them to develop writing skills.
- Group of students who choose project work instead of mini-research will primarily engage in deskwork. Academic engagement in the form of deskwork may involve writing an essay, reviewing an article/book chapter, reviewing a contribution of a particular sociologist, doing a literature review, etc. (not more than 3 to 4 pages typed).

The Subject Teachers are suggested that students get adequate and timely mentoring support to pursue these assignments, whose ultimate aim is to help them form a habit of independent thinking, academic writing, and describing their community (colleges, markets, government offices, local leaderships, family and marriage systems, patterns of migration, processes like urbanization, and so on) from the sociological gaze (above and beyond layperson observations).

Academic Research and Writing

Year:	Fourth	Full marks:	100 (70+30)
Subject code:	So427	Pass marks:	40 (28+12)
Category:	Compulsory	Teaching hours:	150 (100+50)

Course Description: This module discusses the concept and the process of academic research highlighting its importance in higher education particularly focusing on university education. The module deals with all the basic steps of the research process beginning with developing research questions and ends with an argument/conclusion based on sociological reasoning. Students will also be taught/instructed about the nature and process of academic writing. During the entire process of research and writing, students will be engaged in both understanding theoretical knowledge and working with their own individual/group research project. The Subject Teachers will instruct in each step with substantive/constructive comments/guidance. As part of the practicum, by the end of the academic session, this module expects a paper or research report based on the individual/group research project of the students.

Objectives: This paper aims to familiarize the students with the concept and basic steps of academic research and writing process focusing on developing students' skills. It will therefore enable students in developing academic arguments based on logical reasoning.

- Course Contents -

Unit I. Comprehending Academic Research

(15 hrs.)

- Facts, concepts, theories, problems
- Academic research
- Social research
- Research process
- Relationship between theory and empirical research
- Developing sociological thinking
- Choosing theme/issue/topic and highlighting its significance

Practical activities: You are starting your research/project from here. While starting your project you should identify your research theme/issue/topic and discuss why it is important to study or research theoretically/empirically.

Unit II. Conceptualizing Academic Writing

(15 hrs.)

- a) Why do students write?
- b) What do they write?
- c) Types of writing: essay, extended essay, report, thesis, dissertation, case study, scientific paper
- d) The stages of writing
- e) Reasoning in academic research

Practical activities: Based on the discussion on academic writing write down why you write and what you write on the theme/issue you have selected in Unit I focusing on the stages of writing.

Readings

Introduction to the skills of extended writing and research, in *English for Academic Study: Extended Writing and Research Skills*, Reading: University of Reading, pp. 8-11, retrieved on 17 October 2021, https://bayanebartar.org/file-dl/library/IELTS10/English.for.Academic.Study_Extended.Writing.and.Research.Skills/English.for.Academic.Study_Extended.Writing.and.Research.Skills_TB.pdf.

Hohnson, Ralph. (1999). Reasoning, argumentation and the network problem, in *Proto Sociology*, Vol. 13, pp. 14-28.

Unit III. Reviewing Existing Knowledge (Literature)

(20 hrs.)

- a) Literature: sources and importance
- b) Preparing bibliography
- c) Identifying appropriate and relevant literature
- d) Review the literature (and summarize the ideas/knowledge)
- e) Identifying the research gap and developing research questions
- f) Incorporating sources (citing references)
- g) Avoiding plagiarism

Practical activities: Now, students should develop a few research questions that answer three broad headings of research: introduction; main body; and conclusion. At this stage, students have to prepare a reading list (bibliography), identify the appropriate and relevant literature, review them and summarize the key ideas from the literature. The most important task here is to identify the research gap and formulate research questions. Finally, they should also manage to reference in both in-text citation and reference list.

Unit IV. Developing a Research Topic

(15 hrs.)

- a) Focusing on the theme chosen
- b) Developing a topic and narrowing down it
- c) Establishing a working title
- d) Identifying unit of analysis and key variables/indicators

Practical activities: All the students should focus on their particular theme/concept and make efforts in developing a topic. Based on the topic they developed they should again narrow down it (concept) to establish a working title. Since the questions are focused on a specific aspect of the concept they have to identify the variables/indicators to be measured to explore the answer to the questions. It will take a number of classes to discuss the research title of each students.

Developing a focus, in *English for Academic Study: Extended Writing and Research Skills*, Reading: University of Reading, Chapter 5, pp. 49-54, retrieved on 17 October 2021, https://bayanebartar.org/file-dl/library/IELTS10/English.for.Academic.Study_Extended.Writing.and.Research.Skills/English.for.Academic.Study_Extended.Writing.and.Research.Skills_TB.pdf.

Flick, Owe. (2011). From research idea to research questions, in *Introducing Research Methodology: A Beginner's Guide to Doing a Research Project*. New Delhi: Sage Publications India, Chapter 2, pp.18-25.

Unit V. Developing a Research Plan (Research Design)

(15 hrs.)

- a) Conceptualizing and locating the field
- b) Selecting samples/cases/secondary data set
- c) Identifying research methods/tools/techniques

d) Collecting data/doing fieldwork

Practical activities: All the students should identify the key variables to be measured in the field. They should also locate their field from whether they can gather the data their research questions require. To collect the required information/data, they should select a particular research method and develop specific research tools/techniques (questionnaire, checklist, etc.). They should collect the data their research questions demand.

Readings

Developing a focus, in *English for Academic Study: Extended Writing and Research Skills*, Reading: University of Reading, Chapter 5, pp. 49-54, retrieved on 17 October 2021, https://bayanebartar.org/file-dl/library/IELTS10/English.for.Academic.Study_Extended.Writing.and.Research.Skills/English.for.Academic.Study_Extended.Writing.and.Research.Skills_TB.pdf.

Gournelos, Ted, Joshua Hammonds, and Maridath A. Wilson. (2019). Methodology overview, in *Doing Academic Research: A Practical Guide to Research Methods and Analysis*. New York: Routledge, pp. 71-144.

Unit VI. Analyzing Data and Writing Paper/Report

(20 hrs.)

- a) Choosing analytical framework/developing thematic categories
- b) Presenting/analyzing data under each theme and interpretation
- c) Discussion and drawing findings
- d) Drawing conclusions and developing arguments

Practical activities: Now all the students are at the final stage of their academic research journey. They should now develop the themes under the concept/title they are working on. For their guidance, there is one paper (Ballard and Daniel, 2016) recommended in this unit. Before working on their results and analysis (data analysis) section they must discuss the way of data analysis presented in the paper. Then all the students should write their paper/report following the standard format of academic paper/report/article. Also, there is one sample project in McCormack and Slaght (2005, Annex 1).

Unit VII: Guideline for Practicum

(50 hrs.)

As part of the internal evaluation, the Subject Teacher(s) will regularly supervise the students during the entire course of theoretical learning and practical activities under this module. Based on the performance of the students in each step of academic research and writing he/she will evaluate the overall performance of the students. In the end, each student or group of students will submit an independent research paper prepared under the guidance of the Subject Teacher.

The Subject Teachers are suggested to divide the students into groups if the number of students is large, and assign each group a research theme, and ask them to write a scientific report following proper methodology. The Subject Teachers may support the students in this process. Each group of students will submit a report in a format of proper academic writing within the specified time.
