Notice

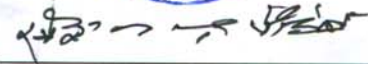

"Prevention is better than cure"

The flu causing eye infection is spreading around our surroundings. It is a communicable illness. In this context, the college expresses serious concerns and advices all the faculty members, staff and students to follow the under mentioned measures so that we can prevent this illness from spreading in the college.

Everybody should

- 1) Wash hands time and again
- 2) Use hand sanitizer
- 3) Avoid touching eyes
- 4) Avoid sharing personal items
- 5) Use eye protection like goggles, if got eye infection
- 6) Consult eye specialist (Ophthalmologist)
- 7) Avoid crowd as far as possible
- 8) Stay under quarantine, if anyone has faced such problem until the eyes become normal

Ramesh Chandra Paudel
Campus Chief
